THE CONTINENTAL thus closes and crowns the year 1870 with a record of which any company might well be proud, and now bearing the palm and prestige of unequalled success, and in view of following important changes and improvements in our plan of doing business, which have recently been made, we enter upon 1871 with yet brighter auspices than have marked the opening of any previous year.

The Dividends to Policyholders will hereafter be made on the "Contribution Plan," and will be paid on Cash Policies in two years, and on Loan Policies in three years from the date thereof, and annually thereafter.

The Stockholders, having become convinced that the welfare of the Company and its policy holders require it, have unanimously consented that, in future, dividends upon stock shall be limited to seven per cent. (legal interest), which the six per cent. interest in gold, received by the Company on the \$100,000 U. S. bonds (amount of capital stock), deposited with the New York State Superintendent of Insurance, more than pays, thus making the Continental a purely mutual Company.

We desire to direct special attention to those important improvements, as evincing conclusively our determination to leave nothing undone which may add to the advantages already possessed by the CONTINENTAL.

## P R E F A C E .

In presenting this Annual edition of HOLBROOK'S NEWARK CITY DIRECTORY, we congratulate our Citizens upon the continued growth and prosperity of the City. On all sides will be seen the march of improvement. Not content is Newark with a gradual extension of its limits, but takes at once, a whole township under its fostering care, by annexing Woodside, (see Map,) and commissioners (see p 711,) already are preparing to transform its beautiful lands, and impart to them a city life. The enterprise of our leading capitalists is witnessed in every quarter, more especially in the increased number of handsome and costly buildings which adorn our main streets. A public Trust Company, also new Banking Companies, comprised of the staunchest of our citizens, increase the number of her Institutions, (see p 712 and front p 3) The grand conceptions of the Public Road Board (see p 767,) in opening broad and extensive thoroughfares; Frelinghuysen Avenue, southerly, to extend to Elizabeth; Springfield and South Orange Avenues on south-west, to extend to the extreme limits of the County; also, Central and Park Avenues, westerly, the former to open direct from Broad Street (at Nesbitt Street), to extend to the Orange Mountains, bringing near to the heart of the City, an extent of country, unsurpassed in beauty.

The subject of Street improvement receives due attention, and as Newark presents a vast field for improvement in that particular, several patent pavements (all claiming superiority), have been laid, to test their adaptability to the City's needs. The "ADAMS" (wood) on Broad, fronting City Hall; "REAM" (wood) on Bank cor. Broad; "PAUL" (wood) Clinton cor. Broad; "STOWS" (wood) on Mechanic cor. Broad, "NICHOLSON" (wood) on Broad, from the Canal to Market Street, "AMERICAN ASPHALT" on William cor. Broad; "SCHARF PATENT ASPHALT" on Eighth Avenue above Warren St; "BELGIUM" (Granite blocks), on Bloomfield Avenue; "TELFORD" (broken stone) on High Street, "SCRIMSHAW" (concrete) on many driveways, etc., (see op p 13.); all in contrast, one with the other, and the "cobble stones," and before the public for a practicable demonstration of their respective merits.

An additional interest to Newark, also, is the terminus of the Paterson and Newark Rail Road, on Passaic Avenue, a branch of the Erie Railway from the great West.

The population of Newark, according to the last census of 1870, was 105,059. Taking the census as a basis, and from the number of new names collected, we may safely estimate the population to be about 110,000. The population of New Jersey, according to figures received from Francis A. Walker, sup't of census, at Washington, is 906,096, an increase of 234,072 over 1860.

It is intended to make this volume a useful book of reference, by embracing all the varied interests connected with Newark (see Appendix, pp 713 and 761) including the Government of the several surrounding Townships, (see p 759), and extending to the State (see p 748) and Federal Government (see p 735) also, New York matters (see p 796). In the rendering of the names, the difficulties which arise are rarely realized by the general reader. "Taxation" and "Creditors" seem to haunt the minds of many, and to combat with ignorance, and remove the prejudice which exists, requires much labor. As there is no general rule in the spelling of names, a suggestion may not be out of place.

Those seeking names, should know the *proper spelling* and not be governed by the sound. For example, those seeking for the name Cain, will not find it in the names of Kane; and for Joralemon, not in Jerolman, and for Reilly, not in Riley, and for Smyth, not in Smith, etc. If uncertain, better to look in the different spelling, as *members of the same family will spell their names differently.*

By many, the Directory is appreciated as a public record, and take pains to have themselves *known* and correctly recorded, while with others, their dislike to a Directory, accords well with their *general uncertainty*; in most instances of omission, or inaccuracy, the fault lies not with its Publisher, as he *earnestly solicits the desired information, and is accessible at all times.* As a Newark Directory, the higher the City of Newark raises in the estimation of the *public at large* as a great Manufacturing Centre, the more importance is the work for reference, and the better as a medium for Advertising, and no better evidence can be adduced than of its being sought for from abroad.

The Business Directory is added as usual, see p 797. The Advertisements are paged, exhibiting to the citizen and stranger at a glance, the whereabouts and facilities of those of business.

A full and complete index to the various branches of business will be found on page xvi.

Maps of Newark, corrected, and with all the additional territory, may be had with or without durable covers, at *The Directory Office, 11 Mechanic Street.*

# LILLIE'S

## DEFENSIVE

# Burglar Proof Safe.

These Safes, now fully perfected, are unequalled for all purposes where absolute security is required. They are unique, made from a new combination of metals, and are constructed upon a principle which renders unavailing the skill of burglars, with the implements and auxiliaries by which robberies are effected.

In addition to this combination of strength, all safes are loaded with powder in such manner that the use of Blow-pipe, Chisel, Wedge or Drill, must explode these magazines, without affecting the strength or contents of the Safe, but must prove fatal to the burglar operating. A knowledge of this fact will prevent burglars attacking vaults where these **SILENT DEFENSIVE BOND HOLDERS**, (always ready to meet them) are deposited.

All Safes will be constructed under the supervision of **Mr. LEWIS LILLIE**, the Patentee, who has had twenty years' experience in the manufacture of

# AMERICAN MUTUAL INSURANCE COMPANY.

No. 746 BROAD ST., NEWARK, N. J.

CHARTERED IN 1848.

CHARTER PERPETUAL.

Annual Scrip Dividends.

From 40 to 50 per cent. Advance Cash Reduction (in lieu of Scrip.)

**Assets, January 1, 1871, \$910,404 75.**

This Company is *purely mutual*, there being no stockholders to control the business for their own interest and receive a share of the profits—all of which in this Company belong to the insured, who are not liable to be assessed for losses, this being a Company owned and managed by the insured for their own interest.

The uniform plan of declaring Scrip Dividends of fifty per cent. since the organization of the Company to parties insured on the Mutual plan, and a Cash Dividend of eight per cent. free from all taxes, to Scrip holders, has secured sufficient surplus to guarantee a continuation of the same in future, and relieve from the fear of cancellation of Scrip to meet losses.

The Directors believing that the condition of the Company will warrant the change, have decided to allow to parties who may desire it, the following advance cash reductions from mutual premiums (in lieu of Scrip), viz :

|    |     |       |    |          |     |      |    |       |        |
|----|-----|-------|----|----------|-----|------|----|-------|--------|
| 40 | per | cent. | on | policies | for | term | of | one   | year.  |
| 45 | "   | "     | "  | "        | "   | "    | "  | two   | years. |
| 50 | "   | "     | "  | "        | "   | "    | "  | three | years. |

And have also decided that hereafter they will declare *annual dividends of profits* to mutual policy holders.

This Company issues Mutual Stock and Perpetual Policies at as low a rate as is consistent with the security of the insured.

Double the above rates charged for books. None forwarded unless *pre-paid*.

*Postage on Books* not exceeding 4 ounces, (pre-paid) - 4 cts.  
And for each additional ounce or fraction thereof, - - 4 "

*Unsealed circulars*, one and not exceeding three in number in one envelope, are charged 2 cents; and in that proportion for a greater number, to one address, *pre-paid*.

*All communications on official business*, from whatever source, addressed to any Executive Department, or to any Chief of Bureau, or other officer having the franking privilege, can pass *free* in the mails, without the indorsement of "official business." All letters and printed matter to and from Members of Congress free in the mails.

*All communications addressed to Postmasters* must be pre-paid; and if a reply is required, stamps for return postage must be in closed. Pre-payment in all cases is indispensable.

*Post Money Orders*, for sums not exceeding \$50 each order, can be obtained at the principal post-offices throughout the country. The use of these orders, by persons who desire to make remittances by mail, is far preferable to sending money, even when the letter containing it is registered. By the money order system, *absolute security* against loss is obtained. Money orders are good for one year from the date of issue. In case of their loss, no charge is made for the issue of duplicates. Persons sending money orders should be careful never to send them in a letter which contains the name of the person from whom they are sent. This is necessary in order to guard against loss in case the letter should fall into improper hands; money orders *never* being paid to any person who can not tell the name of the party to whom they were issued.

As letters are frequently dropped in the letter boxes insufficiently paid, persons who are not certain in regard to weight, rates, &c., would do well to enquire of the Stamp Clerk before mailing them. If sent to the Dead Letter Office they are delayed two or three mails.

1. On the breaking out of a fire, notice should be immediately communicated to the nearest alarm box keys of which are always in the hands of the police and responsible persons in the vicinity of boxes.

2. Key holders, upon the discovery or positive information of a fire, will unlock box, pull down the slide or hook once, and let go quick. This gives the desired alarm over the city, repeating itself five times.

3. All persons giving the fire alarm are requested to remain by the box a moment, and if no clicking is heard in the box, pull again, if you still hear no clicking, go to the next nearest box and give the alarm from that.

4. Never signal for a fire seen at a distance; never touch the hook except to give the alarm of fire, be sure the box is locked before leaving it; give an alarm for no cause other than an actual fire; do not give an alarm for a chimney.

5. Owners and occupants of buildings are requested to inform themselves of the location of signal boxes near their property; also where the keys are kept. Be sure the alarm is properly given; one single stroke of the house gongs is not given for an alarm of fire.

6. Second alarm for the same fire can only be given by the Chief Engineer or one of his assistants.

7. Alarms will be sounded upon the alarm bells thus: For Box Five, five strokes—1—1—1—1—1, with short intervals, and repeating, for Box Thirty-two, three strokes—1—1—1, and a pause, then two strokes—1—1, a longer pause, and repeating. Alarms for other numbers are given in a like manner.

Machinery of all kinds Painted and Ornamented to Order.

I asked an aged man, a man of cares,  
 Wrinkled and curved, and white with hoary  
 hairs,

I asked him where he bought his Shoes.  
 With blandest smile he quick replied,  
 I now am old, but sure had died,  
 Had I not bought of IRVIN.

I asked a maiden all forlorn,  
 Who'd suffered much with aching corn,  
 I asked her why thus happy?  
 She said she'd gone from store to store,  
 Her corns kept aching more and more,  
 But now she bought of IRVIN.

I asked a miss of haughty mein,  
 I judged her age to be sixteen;

I asked her where she traded?  
 Of IRVIN, of course, I buy my Shoes,  
 And Dry Goods get where'er I choose;  
 No one makes Shoes like IRVIN.

I asked a maid from Erin's Isle,  
 With rosy cheeks and sunny smile,  
 Who made the Shoes she wore;  
 Of us, she said, there is just six,  
 And faith we'd be in a pretty fix,  
 Should we not buy of IRVIN.

And then enough I'd heard, and went,  
 Nor e'er begrudged the cash I spent,  
 Direct to IRVIN'S store, where I  
 Am always sure I can rely  
 On what is represented.

**A GREAT JOURNALISTIC ENTERPRISE!**

### **The Volksmann and People's Paper!**

The VOLKSMANN, in a new form, greatly enlarged, with new type, and in both the **German and English Languages**. The paper will be printed on one side in German and on the other side in English—the reading matter on the one page being a translation of the other, thus affording greater facilities to the English scholar to learn German, and the German scholar to learn English, than can be acquired through years of study in any other way. It will contain a full summary of Telegraphic and other news, a complete Local Department, and able Editorials on all the current topics, domestic and foreign, and, in short, will be a complete MORNING NEWS-PAPER. The publisher will endeavor to make it a popular family newspaper, and nothing will be admitted to its columns which can be objected to on the score of taste or morals. To accommodate those persons who are off the lines of the different rail-ways, the proprietor publishes a weekly, called THE WEEKLY PEOPLE'S PAPER, in both languages, in the same manner, and a weekly called the LANDBOTE, in the German language alone. Both weeklies contain accurate reports of the Newark and the New York Produce Markets, which alone will be worth more than the price of the paper to any farmer. There is published also a series of original articles, written by an "Ex-Cartman," which will be worth the price of a year's subscription.

**TERMS.** Daily Paper, \$8 per annum in advance, \$2.50 for three months. THE WEEKLY LANDBOTE and THE WEEKLY PEOPLE'S PAPER, single copies, \$2 each. In cases of ten or more \$1.50 a year—invariably in advance. All letters or advertisements for any of these papers, should be addressed only to

## HUNT'S Excelsior Metallic Refrigerator

The most Perfect Article of the kind  
ever offered to the Public.

Its principle points of excellence are the following:

1st. It is made wholly of Galvanized Iron, which resists oxydation to the last degree.

2d. It combines a Water Cooler with the Refrigerator, thus saving the entire cost of a separate vessel for that purpose.

3d. It has no Packing or Filling to become damp thus causing decay and the universal bad smell of those made of

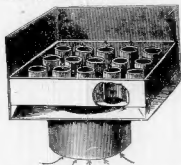

wood, and packed.

4th. Its cold chamber is beneath the ice, and thus is free from the ascending vapor, and hence always clean and dry.

5th. Its cold chamber is Cylindrical, and is provided with revolving, adjustable shelves, thus, in a moment adapting the spaces to any required size, and admitting of putting in or taking out any desired dish, without the least disturbance of any other.

6th. When not required, as in winter, for the common purposes of a refrigerator, it affords the most perfect SAFE for the preservation of food from dust, mice and all vermin.

The only Refrigerator ever offered that was not useless in Winter and offensive in Summer. Call and examine.

## HUNT'S EVAPORATOR!

To be Used in Connection with Hot Air  
Furnaces and Heaters, and can  
be Applied to any Register  
now in use at a small  
expense.

It is fitted beneath the Register, with partitions for holding water, through which the hot air passes, evaporating the water and combining it with heated air, rendering the atmosphere free from all impure and injurious gases, or steam.

The use of this invention will prevent the warping of woodwork, cracking of walls and other injuries to house and furniture heretofore experienced.
